SERVICE APPROACH

SERVICE DELIVERY

Delivering customer orders in accordance with specifications, obtaining customer approval, and handing off to support.

CUSTOMER VERIFICATION

The agent is given the incident category, priority, and customer verification and authentication before being given the task.

FEEDBACK

After the troubleshooting of issues, the customer signs off to close the case and collects feedback.

INCIDENT MANAGEMENT

Any incident that is reported by a client or by the monitoring system is recorded in the ticketing system.

TROUBLESHOOT

Troubleshooting of customer issues and queries in an instant by our round-the-clock available tech experts.

WHO WE ARE

The journey of Infinitive Host starts from 2017 with a vision to solve customer's problem of having a trusted and reliable hosting provider. The founder of the company Mr. Kuldeep Negi had realised that people were facing a big issue of having a trusted hosting provider with available technical support to resolve their server related issues. This motivated him to build a reliable and trusted web hosting platform that not only provides quality hosting solutions but also solves customer's problems by providing 24*7 instant manual support.

Today InfinitiveHost is a leading name in the web hosting industry that provides hosting services in all domains including: shared, VPS, dedicated, application, windows, cloud, E-mail servers, and streaming solutions. Our all web hosting plans are designed to meet the customised needs of our clients and also fits their pocket. Every day, we try to develop and do everything we can to make our clients' aspirations a reality. Our customers can count on us to treat them with respect and humility.
